

Dental Medical Instrument Hoses Scope of Supply

While we produce hoses for all common dental units made by German manufacturers, we also create solutions for any new requirements – not limited to the dental sector!

- Turbine hoses
- Motor hoses
- Air Motor hoses
- Syringe hoses
- Scaler hoses
- High-Frequency Surgery Hoses
- Special hoses

Hoses can be produced to meet your individual requests for connector casings, unit-side supply requirements, colour and length of hoses, and are CE-certified.

Many Years of Experience

Founded in 1971, Medtronic has been a leading manufacturer in the dental sector for more than 45 years specializing in the development and production of dental medical instrument hoses and spare parts.

Production - Everything from a Single Source

As we produce more than 90 % of our products ourselves, have our own development department and make our own tools and moulds, we are in a position to respond quickly to any customer requirements. We at Medtronic also like to identify and initiate new ideas – together with our customers we develop new products and find solutions.

We are equipped with laser systems, CNC lathes, eroding and grinding machines, HSC processing centres (high speed cutting), extrusion facilities and injection moulding units etc. to manufacture the products you need.

Quality „Made in Germany“

Medtronic promises and delivers high-quality, innovative and durable products „Made in Germany“!

ISO / CE / KTW / W270 certified

Medtronic is certified in compliance with DIN EN ISO 13485. Our water-supply hoses are KTW approved for use with drinking water and comply with DVGW requirements (W 270 approval).

All from a single source!

Mytronic has its own development department, manufacture our own tools and moulds and produce over 90 % of our products ourselves. Therefore, we are in a position to respond to any new product requirements quickly and can ensure highest quality standards. Mytronic is certified according to DIN EN ISO 13485.
