Water Bottle System

Water Bottle System Clean Water

for mounting ON unit (via angle) or IN unit (mounting in unit from below)

For Hygienic Safety You Can Rely on Mytronic's Clean Water System

- The system can be adapted to any treatment unit
 - Mounting on treatment unit by using a mounting bracket
 - Water bottle connected to compressed air (regulated by an automatic pressure regulator)
 - Automatic pressure release when exchanging the water bottle

- The use of clean water ensures technical safety
 - Mytronic's water bearing hoses are approved for drinking water use and are biocompatible.
 - Our hoses are tested in compliance with DVGW worksheet no. W 270*. (Reduction of micro-biological growth such as bio-slime, fungi and bacteria in drinking water applications).

*DVGW = German Association of Gas and Water

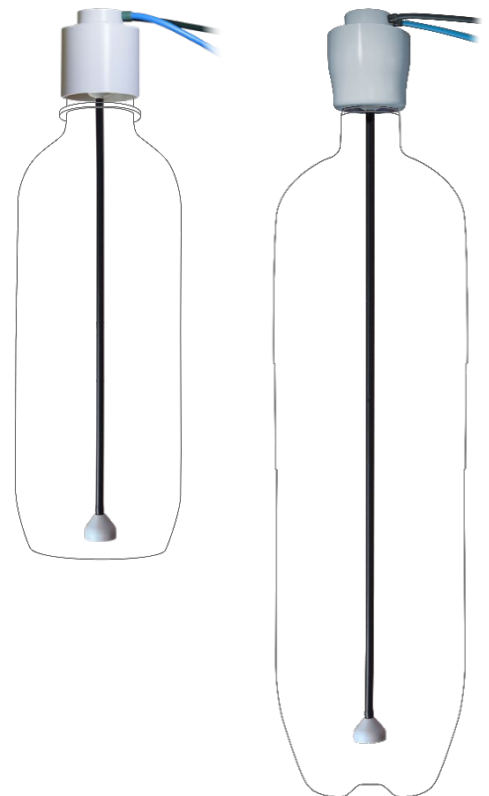

- E Stainless steel version for mounting ON type with or without mounting bracket

Mounting IN type

with thread for S-Stream bottles

with standard thread for e.g. DCI® bottles

! The Mytronic Water Bottle Systems are also available with a higher water flow rate for cup filling! Please contact us for further information!
